4. Learner Login

- a. All students have a National Student Number (NSN) which is used by the school and NZQA to create your Record of Achievement. You should register and use your NZQA Learner Login on the NZQA website: www.nzqa.govt.nz
- b. Use this facility regularly to check the accuracy of your entries and results.
- c. Results, Record of Achievement and Certificates are not sent to you.
- d. You must login to view your results online in January when results for externally assessed standards are released.
- e. Any documents you may need are ordered online in the Learner login area, *Order Documents*. These include your results, Record of Achievement, School Results Summary, and any Certificates you may have been awarded. You are entitled to one free copy of each document if your NZQA Fees have been paid.

5. Assessment Rules

- a. Assessment Opportunities
 - i. **It is school policy that ALL students will attempt ALL assessments offered in each course that they are entered for, at the discretion of the HoD.**
 - ii. Students may be advised to withdraw from specific standards by Heads of Department (HoDs).
 - iii. The school is permitted by NZQA's rules to offer a maximum of two assessment opportunities for any standard in a year.
 - iv. Students may be offered the opportunity to resubmit work (if appropriate) or receive one reassessment opportunity (if available).

b. Resubmission

- i. Teachers will use their professional judgement and only offer this to students where minor errors prevent them from reaching an 'Achieved' grade.
- ii. The student should be able to identify and correct minor errors on his own.
- iii. This is not a further assessment opportunity
- iv. Only one resubmission is allowed per assessment standard.
- v. It is limited to specific aspects of the assessment that can be corrected quickly without teacher feedback or further teaching or learning.
- vi. The only change in grade boundary available for resubmissions is from 'Not Achieved' to 'Achieved'.

c. Reassessment

- i. A reassessment is an opportunity for a student to sit another assessment for an assessment standard.
- ii. Only one further assessment opportunity for each standard can be offered in a year.
- iii. Reassessment availability is decided by each Subject Department based on practicability
 - a) Reassessment should only take place after an opportunity for further related teaching and learning has occurred.
 - b) A different activity or task must be offered for the further assessment opportunity.
 - c) The further assessment opportunity must be offered to all students entered for that standard in that course, regardless of the grade that they achieved. Students do not need to take up the opportunity.
 - d) If a reassessment opportunity is impractical (for example, the assessment is a Science experiment that cannot be repeated due to time restraints, or a Technology of Art project that is the accumulation of a year's work). Students must be told upfront whether a further assessment opportunity is available for the standard.
 - e) The timeframe for any reassessments will be decided by the Teacher/Department.
 - f) A student must have access to all grades – whether it is their first or subsequent attempt at the standard.
 - g) The highest grade from either assessment opportunity is reported.

6. Authenticity

- a. Authenticity is the assurance that evidence of achievement produced by a student is their own.
- b. Teachers will set conditions of assessment to assist with managing this.
- c. It is appropriate for students to learn from others at home and gather information from a range of sources.
- d. Students must be aware of using correct procedures for referencing sources that they use in assignments so that they do not plagiarise.
- e. Parents and caregivers should be aware that they cannot assist their son with the final product that will be turned in for assessment.
- f. Some departments require a signed authenticity statement to remind students of this factor.

- g. Your work must not be shared with any other student, regardless of the format in which it is presented (e.g. Google docs, OneNote)

7. Missed and Late Assignments

Every assignment will have a published deadline

a. Extensions

1. Extensions are given at the discretion of the HoD.
2. Applications must be made well before the assignment due date, using the Application for Extension form (from the Principal's Nominee, Mrs Mansell).
3. Any request for an extension must be based on either
 - a) a medical necessity - accompanied by a medical certificate.
 - b) a genuine reason for lateness accompanied by a supporting note from a parent/caregiver.
4. If a student has missed the assessment due to school commitments (sport, cultural) then the extension process does not require a covering note from the parent.
5. If a student has been granted an extension, then he should be allowed to present his work at a negotiated later date as a first attempt.

b. Late work:

- i. No teacher may accept a late submission for an assignment
- ii. **Work that is presented after the published due date and without any attempt by the student to arrange for an extension, will be considered as the first assessment opportunity missed - this means the initial grade is Not Achieved.**
- iii. Teachers will notify parents of late or missed submissions.
- iv. If you leave an assignment at home on the due date, see the relevant HoD immediately for advice.
- v. You must submit a hard copy of your assignments for assessment unless prior approval has been given by the relevant Teacher to allow an electronic copy to be submitted for assessment.

8. Expectations for Examinations and Assessments

- a. Correct uniform will be worn for all internal and external exams.
- b. Writing equipment must be in a clear plastic bag and placed on the floor, not on the desk – leave bags, digital devices, twink and red pens outside.

- d. Study leave is not available during internal exams.
- e. Study leave is granted while NCEA examinations are in progress in November.

- b. The HoD must be supplied the evidence in order to give approval for eligibility for assessment.
- c. Apply directly to the PN for consideration for credits if
 - i. you have legitimately missed all offered assessment opportunities and
 - ii. your teacher holds enough documented evidence of your level of achievement in that standard.

- a. Students are expected to follow school rules for behaviour and the specific conditions of the assessment they are working on.

- f. Misconduct during external examinations is investigated by NZQA.

11. Appeals

- a. Every aspect of the School’s assessment and reporting system allows the right of student appeal.

- b. Before your grades are entered in the markbook for a Standard, you must be given the opportunity to verify that the mark/grade is accurate and sign it off on the appropriate page of the assessment paper.
- c. Grade verification must take place within five (5) school days of receiving a grade.
- d. Once a grade has been signed off by you there is no further right of appeal.

- b. Teachers refer identified students via their HoD to the school SENCO, and the SAC team.
- c. The SENCO will retain and update information about students with medical and physical conditions and/or specific learning disabilities obtained during transition and enrolment.
- d. Eligibility and benefit of assistance for the identified student must be proven.
- e. The SENCO and SAC team gather data on identified students by
 - i. Applying specific tests.
